DEFENDANTS' THIRD SUPPLEMENTAL OBJECTIONS AND RESPONSES TO REDSTONE LOGICS LLC'S FIRST SET OF INTERROGATORIES NOS. 1-15

Pursuant to Federal Rules of Civil Procedure ("Federal Rules") 26 and 33, the Local Rules of the United States District Court for the Western District of Texas ("Local Rules"), and the Court's Standing Order Governing Proceedings (OGP) 4.4—Patent Cases ("OGP"), Defendants Qualcomm Incorporated and Qualcomm Technologies, Inc. ("Collectively Qualcomm") hereby submit the following Third Supplemental Objections and Responses to Plaintiff Redstone Logics LLC's ("Plaintiff" or "Redstone") First Set of Interrogatories, dated June 10, 2025 ("Interrogatories"). Qualcomm has not completed its investigation of the facts relating to this litigation, has not completed its discovery in this action, and has not completed its preparation for trial. Accordingly, these Objections and Responses are preliminary and based only upon the information presently available and known to Qualcomm.

Qualcomm reserves the right to further supplement and amend its Objections and Responses to the Interrogatories as the litigation develops and if and when it discovers any additional relevant and responsive information. Qualcomm further reserves the right to object to the admissibility of any of its Interrogatory Responses or any of the documents produced to

INTERROGATORY NO. 3:

For each Accused Product, Relevant Component, and each product You identified in response to Interrogatory No. 1, identify and describe in detail the dates and circumstances it was first: (a) publicly announced, (b) put into active service, (c) offered for sale, and (d) sold, and identify the person(s) responsible for each activity.

MARCH 6, 2026 AMENDED RESPONSE TO INTERROGATORY NO. 3:

Qualcomm hereby incorporates by reference General Objections, its Objections to Definitions, and its Objections to Instructions above as if fully set forth herein.

Qualcomm objects to the phrases "for each," "Accused Product," "Relevant Component," "each product," "circumstances," "publicly announced," "put into active service," "offered for sale," and "responsible for each activity" as unfairly vague and ambiguous, and causing this Interrogatory to seek discovery that is overly broad, unduly burdensome, not relevant to any claim or defense in the litigation, not proportional to the needs of the litigation, not reasonably calculated to lead to the discovery of admissible evidence, and for which the burden or expense outweighs its likely benefit to the extent the phrases are not defined and require Qualcomm to provide information not ascertainable through a diligent search of reasonable scope and/or not reasonably related to any allegation in this case.

Qualcomm also objects that the phrases "each Accused Product, Relevant Component, and each product You identified in response to Interrogatory No. 1" are overly broad and unduly burdensome to the extent they seek to impose a burden on Qualcomm to identify information not

discovered through a diligent search of reasonable scope. Qualcomm incorporates by reference its objections to Interrogatory No. 1 as if set forth fully herein.

Qualcomm further objects to this Interrogatory as vague, overbroad, unduly burdensome, and not proportional to the needs of the litigation for its use of the vague phrases "Accused Product" and "Relevant Component" to the extent the Interrogatory seeks information about products not specifically accused of infringement in Redstone's operative infringement contentions.

Qualcomm further objects to this Interrogatory as uncertain, overly broad, unduly burdensome, and oppressive as it fails to specify any responsive time period, and accordingly is not limited to events relevant to this litigation.

Qualcomm further objects to this Interrogatory to the extent it purports to require Qualcomm to furnish information that is not kept in the ordinary course of its business or to furnish information that is equally available and/or publicly accessible to Redstone.

Qualcomm further objects to this Interrogatory as compound to the extent it improperly requires Qualcomm to respond regarding multiple, discrete subjects couched as a single Interrogatory. This Interrogatory requires Qualcomm provide multiple discrete pieces of information and separate responses for multiple products. Qualcomm also objects to this Interrogatory as overly broad and unduly burdensome for the same reasons.

Qualcomm further objects to this Interrogatory as vague and unduly burdensome to the extent that it relies upon defined terms that themselves are objectionable. Qualcomm incorporates by reference its above objections to the definitions of these terms as if set forth fully herein.

Subject to and without waiving the foregoing objections and based on Qualcomm's understanding of this Interrogatory, Qualcomm states:

For products identified in response to Interrogatory No. 1, the earliest corresponding order date is as follows:
